

Weighing | Dosing | Analysing

2025

About us

PTM boasts extensive and solid experience in the fields of **electronic weighing, dosing, analysis, and electronic automation**, with applications in both **agricultural and industrial sectors**.

Our products are designed, developed, and manufactured in-house through **our Research and Development department, our Load Cell Laboratory, and our Electronic Laboratories**.

Through **our Engineering Laboratory**, PTM also creates **Software, Apps, and WebApps** that interface with weighing indicators, developing applications that meet the specific needs of each customer.

In addition to the high quality and reliability of its products, PTM is also distinguished by the **efficiency of its after-sales service**, which is always operational and available for both technical consultancy and post-sales support.

Our history

1979

Company foundation

2001

First management software

2003

First foreign importer in Germany.

2012

First cloud-based management software

2020

Our WebApp

1997

First international trade fair: Agritechnica

2002

First international award: Technical Innovation

2009

First touch-screen scale

2015

First app

2024

Feeding Farm

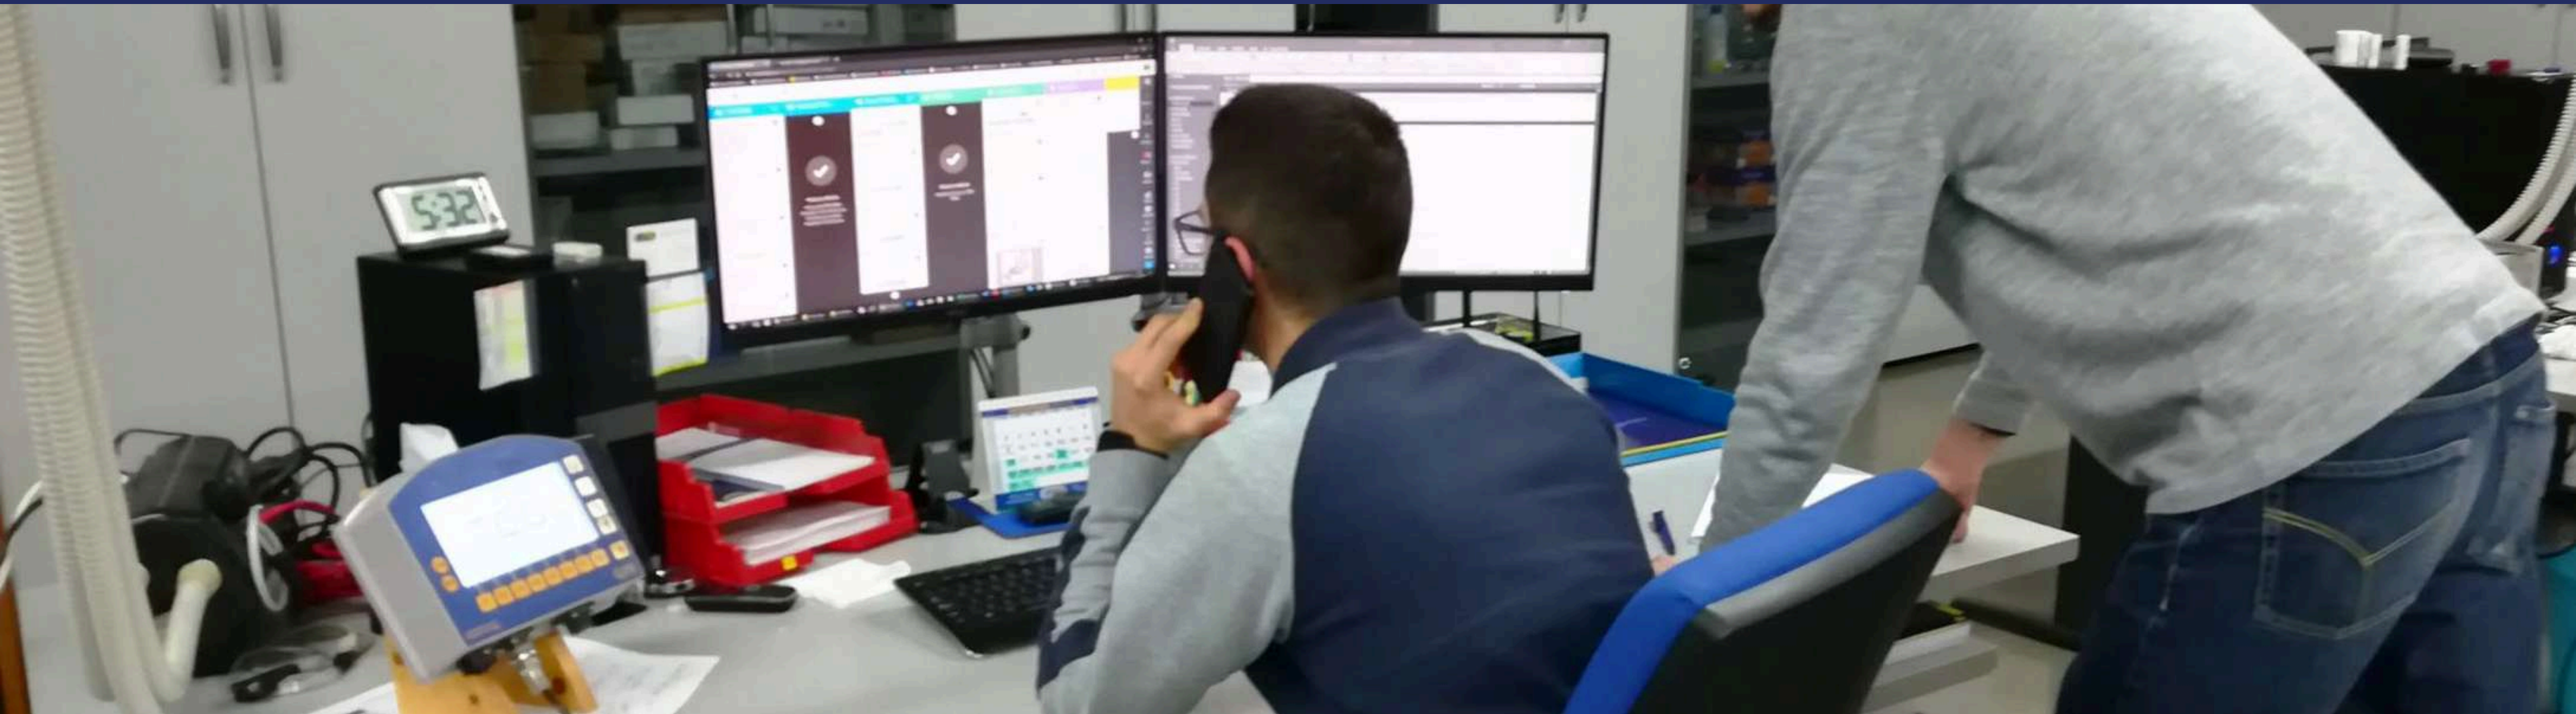

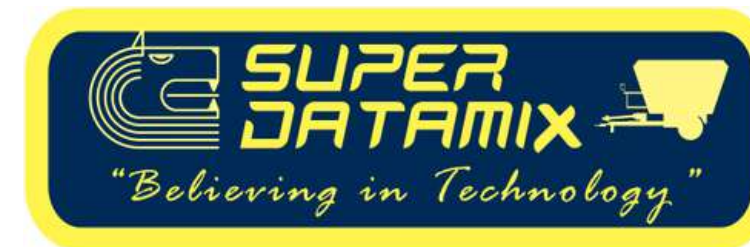

The **technical department** consists of a team of specialized engineers, with the aim of designing new products.

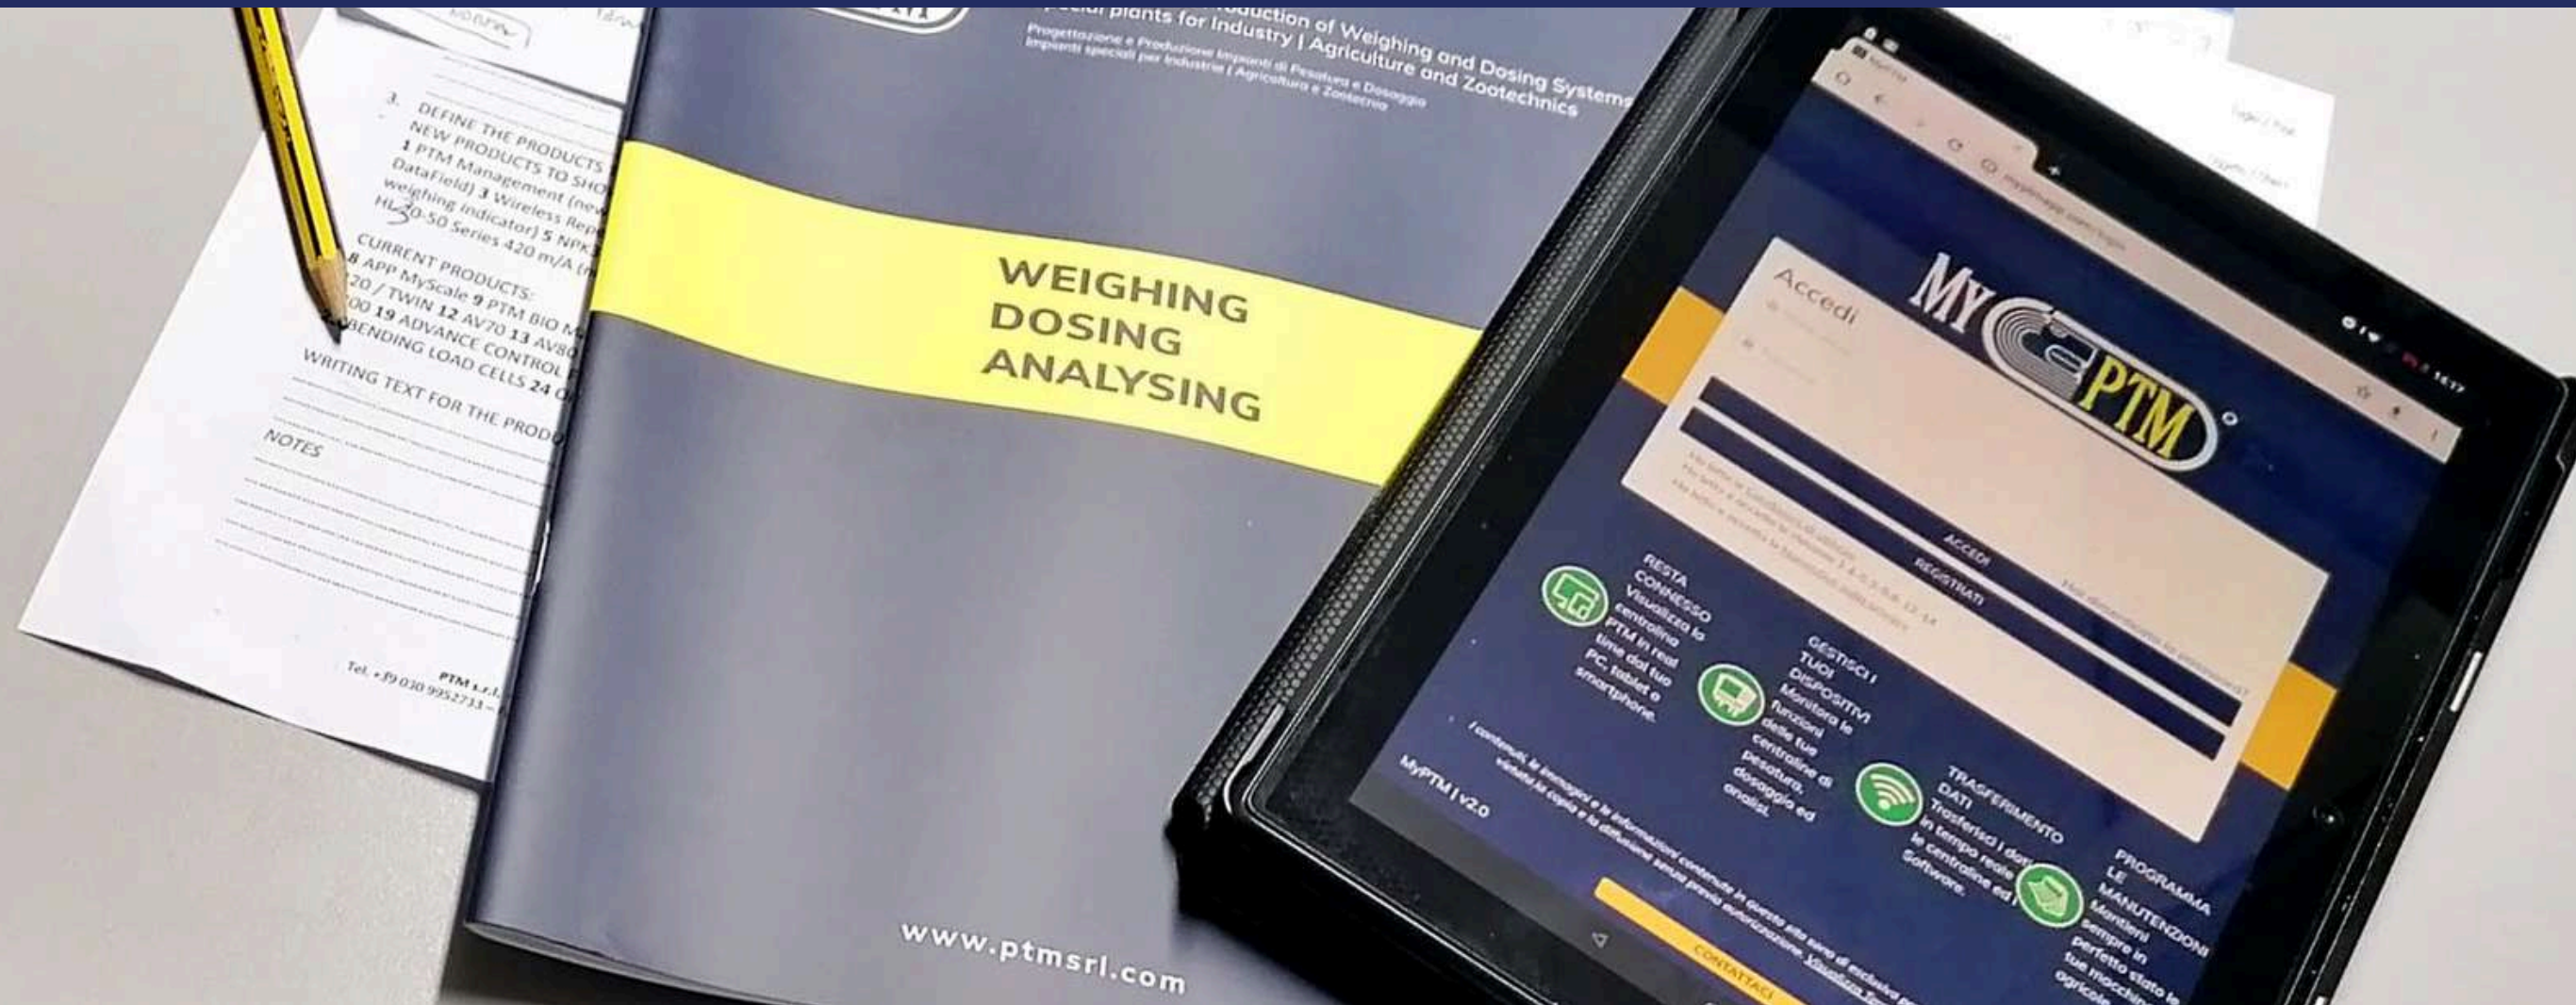

The **electronics workshop**, in cooperation with the **technical department**, is able to realize **prototypes** and **customized products**.

Thanks to its **FOURTY-YEAR** experience, PTM can count on a wide range of references, which find application both in the agricultural and industrial field.

Together with the design and production of hardware components PTM has also been active for several years in the design of **management softwares**.

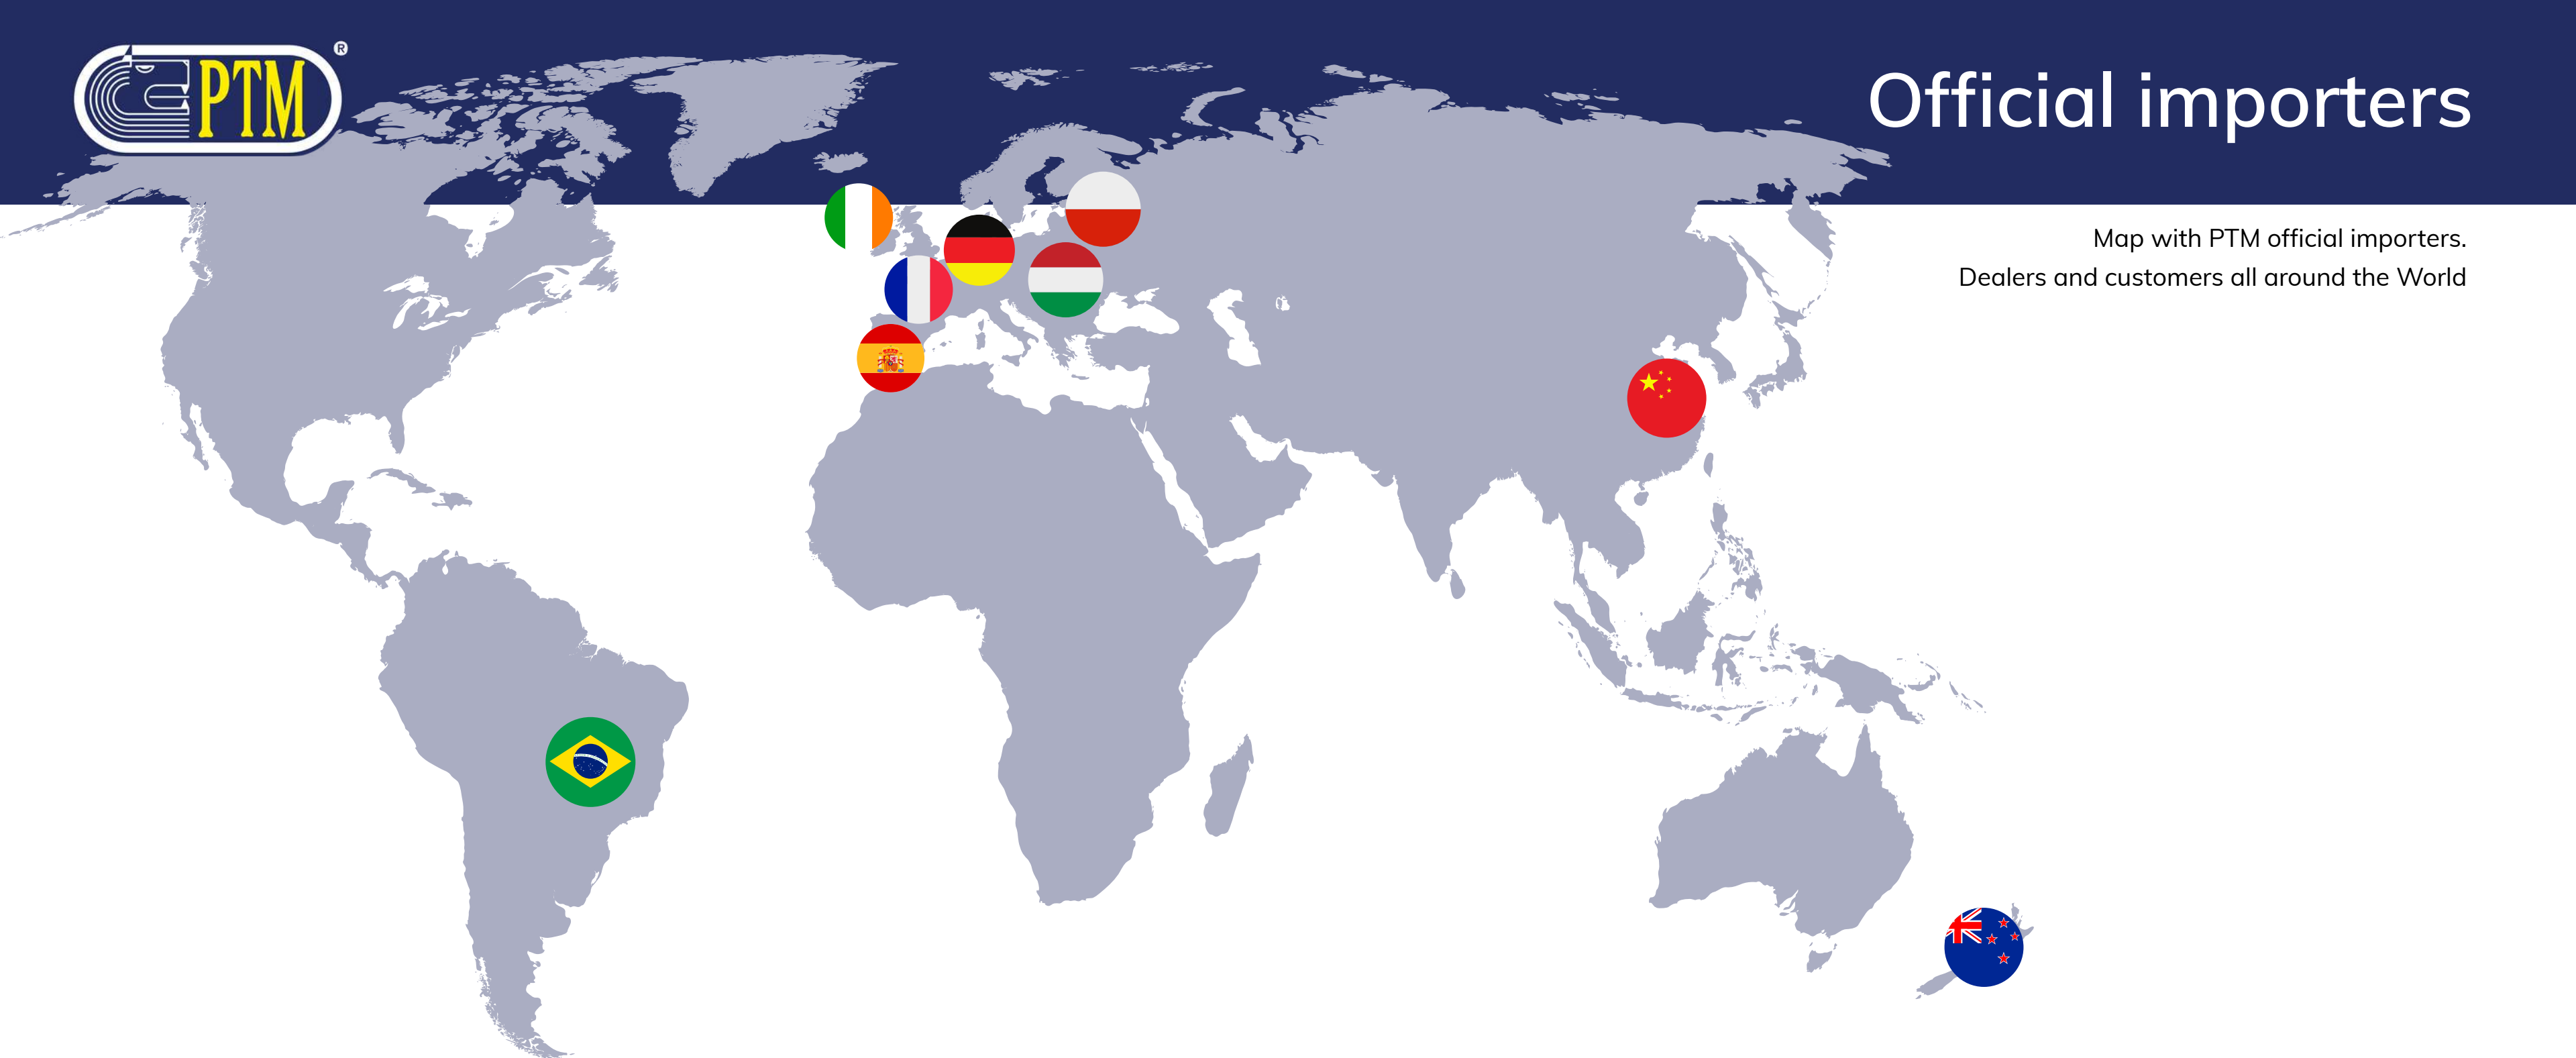

PTM has made a step forward and has moved its software on the so-called “**Informatic Cloud**”, in order to improve the management of such applications.

Official importers

Map with PTM official importers.
Dealers and customers all around the World

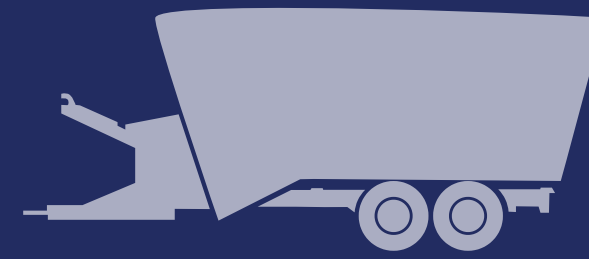

The foreign market is fundamental for PTM, from which over 70% of the annual turnover derives. For this reason, PTM makes use of importers in different continents who have been following the needs of customers in each specific market for decades and have a daily relationship with the Italian head quarter.

PTM.

Over 40 years of commitment and satisfaction.
